Limitation of Available Data

The search results provided contain **incomplete and inconsistent RERA information** for the Akshay Nakshttra project in Dhayari, Pune. Specifically:

RERA Number Discrepancy:

- Source 1 lists RERA number: **P52100078027**
- Source 3 lists RERA number: **PM1260002400034**

This inconsistency is a significant red flag and indicates that the information available through general real estate portals is unreliable.

Critical Data Gaps

The search results do **not provide** the following essential RERA compliance information you have requested:

- Official RERA registration certificate or current status from the Maharashtra RERA portal
- RERA registration validity period or expiry dates
- Promoter RERA registration number and validity
- Quarterly Progress Reports (QPR) submission status

- Environmental Impact Assessment (EIA) reports
- Fire safety department approvals
- Occupancy Certificate timeline
- Actual unit specifications and measurements

To obtain verified RERA compliance information, you must:

1. **Access the Maharashtra RERA Portal directly** (rera.maharashtra.gov.in) and search using the correct RERA registration number

3. **Request certified documents directly from Akshay Construction Company** including:
