Baxter Arista Project Analysis - Wagholi, Pune

CRITICAL NOTICE: The search results identify this project as "**Arista by Baxter Realtors & Infra Projects (P) Ltd**", not "G Square Realtors Pvt Ltd" as mentioned in your query. This developer name discrepancy requires immediate verification before proceeding with any transaction.

Project Overview

Arista is a completed residential project in Wagholi, Pune, developed by Baxter Realtors & Infra Projects (P) Ltd. The project was launched in September 2012, with possession starting in December 2014, and is currently listed as **Ready to Move** status. The development spans 1 acre and comprises 52 apartments in 1 BHK (685 sq ft) and 2 BHK (1005 sq ft) configurations.

RISK ASSESSMENT MATRIX

RERA Validity Period

Status: Data Unavailable - Verification Critical

Assessment: No RERA registration number or validity period is available in search results. Given the project's 2012 launch date (pre-RERA era) and 2014 possession date,

this project predates the Real Estate (Regulation and Development) Act implementation in Maharashtra (May 2017).

Risk Level: Investigation Required

Recommendations: Request RERA exemption documentation or retrospective registration proof if applicable. Verify completion certificate from Pune Municipal Corporation.

Litigation History

Status: Data Unavailable - Verification Critical

Assessment: No information available regarding pending litigation, buyer complaints, or legal disputes involving Baxter Realtors & Infra Projects (P) Ltd or the Arista project.

Risk Level: Investigation Required

Recommendations: Conduct comprehensive title search through qualified property lawyer. Verify no encumbrances, pending cases, or buyer disputes through consumer forums and civil courts.

Completion Track Record

Status: Medium Risk - Caution Advised

Assessment: Project shows completion status with Ready to Move designation. However, price discrepancies across sources (₹ 24.66-36.18 Lakhs on one platform versus ₹ 49.8-69.6 Lakhs on another) raise concerns about inventory status and developer practices. Limited information available about Baxter Realtors' other projects or historical delivery performance.

Risk Level: Medium Risk

Recommendations: Verify actual completion through physical site inspection. Request list of all completed projects by Baxter Realtors with possession dates versus promised timelines.

Timeline Adherence

Status: Low Risk - Favorable

Assessment: Launch date September 2012, possession start December 2014 represents approximately 27-month timeline. This appears reasonable for a 52-unit, 1-acre development, indicating adherence to committed schedule.

Risk Level: Low Risk

Recommendations: Confirm actual handover dates from existing residents. Verify no delayed possession complaints through consumer forums.

Approval Validity

Status: Data Unavailable - Verification Critical

Assessment: No information provided regarding commencement certificate, occupancy certificate, or building plan approval validity periods.

Risk Level: Investigation Required

Recommendations: Obtain and verify Occupancy Certificate (OC) from Pune Municipal Corporation. Confirm building plan approval and completion certificate validity.

Environmental Conditions

Status: Data Unavailable - Verification Critical

Assessment: No environmental clearance documentation or assessment available in search results. The 1-acre size may place it below mandatory Environment Impact Assessment thresholds, but verification required.

Risk Level: Investigation Required

Recommendations: Request environmental clearance if applicable for project size. Verify compliance with Maharashtra Pollution Control Board requirements.

Financial Auditor

Status: Data Unavailable - Verification Critical

Assessment: No information regarding developer's financial auditor, audit reports, or financial stability assessments available.

Risk Level: Investigation Required

Recommendations: Request audited financial statements of Baxter Realtors & Infra Projects (P) Ltd for last 3 years. Verify developer's financial health through credit rating agencies.

Quality Specifications

Status: Medium Risk - Caution Advised

Assessment: Specifications indicate standard-grade materials:

- Vitrified tiles in living areas
- Ceramic tiles in balconies and toilets
- Laminated flush doors
- Powder coated aluminum sliding windows
- Jaquar Continental range plumbing fixtures
- Concealed plumbing and electrical
- Modular kitchen with dishwasher

Quality appears adequate but not premium grade.

Risk Level: Medium Risk

Recommendations: Conduct independent structural and quality audit through licensed civil engineer. Verify actual specifications match promised documentation before purchase.

Green Certification

Status: High Risk - Professional Review Mandatory

Assessment: No IGBC, GRIHA, or other green building certification mentioned. Project lacks sustainability features documentation beyond basic rainwater harvesting mention.

Risk Level: High Risk

Recommendations: Assess actual sustainability features during site visit. Lack of certification may impact long-term operational costs and resale value.

Location Connectivity

Status: Medium Risk - Caution Advised

Assessment: Wagholi area descriptions indicate:

- Positive: Wide roads, shopping malls within few kilometers, frequent bus availability (10-15 minutes), hospitals at walkable distance, proximity to Keshavnagar Phata bus stop
- Negative: Inadequate parking spaces near market areas, improper streets with garbage issues, lack of playgrounds and recreational facilities

Risk Level: Medium Risk

Recommendations: Visit location multiple times at different hours. Verify actual infrastructure development versus promised connectivity. Check planned metro/infrastructure projects for area.

Appreciation Potential

Status: Medium Risk - Caution Advised

Assessment: Average price listed at ₹3,000 per sq ft, significantly lower than typical Pune pricing. Price variations across platforms (₹28 Lakhs to ₹69.6 Lakhs for similar configurations) suggest market uncertainty. Wagholi's developing infrastructure presents growth potential but lacks established premium status.

Risk Level: Medium Risk

Recommendations: Compare with recent transactions in same locality. Analyze 3-5 year price trends for Wagholi. Consider future infrastructure development plans affecting appreciation.

Risk Mitigation Strategies

1. **Escrow Payment:** Structure payment through escrow account releasing funds only after documentation verification.
